

SAWMILLS DEMAND A VARIETY OF LIGHTING TYPES. IN SORTING/GRADING AREAS, HIGH LEVELS OF ILLUMINATION ARE NEEDED ON HORIZONTAL PLANES FOR WORKERS TO RECOGNIZE DEFECTS AT UP TO A TWO FOOT VIEWING DISTANCE. ALSO A STRONG UNI-DIRECTIONAL LIGHTING COMPONENT IS NEEDED, AIMED AT AN ANGLE OF 20-45° BELOW HORIZONTAL SO WORKERS CAN QUICKLY SEE SURFACE DEFECTS AS LUMBER IS GRADED.

FROM THE MILL-PREP ROOM TO FINISHING AND INSPECTION HUBBELL OFFERS THE BREADTH OF LINE AND OVER A DOZEN LIGHTING BRANDS TO MEET THE NEEDS OF THE APPLICATION. WE HAVE THE PRODUCTS AND LIGHTING EXPERTISE TO CREATE LIGHTING ENVIRONMENTS THAT STAND THE TEST OF TIME.
