◆ Punch-Down Tool, 1-Punch

4-Pair for Xcelerator™ Jacks

The "1-Punch" Tool and Xcelerator™ Jacks are made for each other. Designed to punch-down all 4-pairs consistently and cut off all conductors in "1-Punch". This tool saves valuable installation time over traditional single-blade tools that require multiple cycles.

This tool should be used exclusively with Xcelerator™ jacks. Additionally, it is necessary to use this with Hubbell Premise Wiring "Jack Knuckles" termination aid.

◆ FEATURES

- High impact handle with cushioned grip
- Sharp blades
- Replaceable punch-down head
- Replaceable cartridge blades
- Common handle for 1-Punch, 5-pair and 6-110 heads

◆ SPECIFICATIONS - TX4P

- ◆ Patent-Pending
- ◆ Twist and lock punch-down head
- ◆ Ergonomic rubber handle for comfort
- ◆ Terminates AWG 26-22 solid wires with single insulation
- ◆ Designed specifically for use with Hubbell Premise Wiring Xcelerator™ jacks only
- ◆ "Cut" designation on tool head aids in proper orientation

Delivery

1 Impact handle
1 Punch-down head for Xcelerator™ jacks
1 "Jack Knuckles" termination aid

Description	Catalog No.
1-Punch Tool with head, blades and termination aid	TX4P
Replacement 4-pair XJ head	TX4PH
Replacement 4-pair XJ blades	TX4PHBL
Jack Knuckles termination aid	HXTA

The new 1-punch tool makes punching down a Hubbell Xcelerator jack quick and easy. Five easy steps get the job done.

Lace the jack and place in a Hubbell termination aid. Always use this tool with a termination aid.

Align the head of the punch down tool over the target jack with the slots of the tool head ready to slide onto the shoulder of the jack nose.

Place the punch down head onto the Hubbell Xcelerator jack.

With one hand hold the termination aid. With the other hand depress the tool handle completely down until the tool cycles impact.

Remove the tool head from the jack and inspect the jack and install stuffer cap onto termination towers.

◆ Punch-down Tool

5-Pair for 110 Blocks

The 110 5-pair impact tool is designed to seat 110 connecting blocks and terminate and cut UTP cable on 110 wiring blocks. Saving time and money, it makes large termination jobs small by greatly reducing the number of punch cycles.

◆ FEATURES

- Ergonomic rubber handle with cushioned grip
- Replaceable punch-down head
- Replaceable cartridge blades
- Common handle for 4- and 5-pair heads
- Sharp blades

◆ SPECIFICATIONS

- ◆ Adjustable cartridge to cut/no-cut positions
- ◆ Terminates 26-22 AWG solid and stranded wires with single insulation
- ◆ Twist and lock head
